Key Highlights

Ranked **Top 4** in IIIT Naya Raipur leaderboard on GeeksforGeeks.

Solved **850+ coding problems** across GfG and LeetCode with consistent 100+ day streaks.

Maintaining **135-day GfG streak** and **118-day LeetCode streak**.

LeetCode Contest Rating: **1757** (Top 9.53%), GfG Coding Score: **1723**.

Finalist in Technovate 6.0 Hackathon for full-stack application development.

Certified in MERN Stack, Cloud AI Foundations, and Problem Solving (Intermediate).

Professional Summary

Detail-oriented and results-driven Software Developer with strong skills in the MERN stack (MongoDB, Express, React, Node). Experienced in designing and developing scalable, full-stack web applications and RESTful APIs. Skilled in Data Structures, Algorithms, and modern JavaScript (ES6+). Focused on building efficient, user-centered applications and delivering high-quality solutions through clean code and teamwork.

Technical Skills

Frontend: React.js, Next.js, TypeScript, Tailwind CSS, React Native, Zustand

Backend: Node.js, Express.js, Rust (Soroban Smart Contracts)

Databases & Blockchain: MongoDB, Firebase, SQL, Stellar Blockchain

Languages: JavaScript (ES6+), C++ (for DSA), Rust

Tools: Git, GitHub, Postman, Freightier Wallet, Soroban CLI

Concepts: OOP, DSA, JWT Authentication, Decentralized Apps (dApps), MVC

Projects

MedCare Hospital Management System

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT

Developed a hospital management platform with secure role-based access (Admin, Doctor, etc.).

Built real-time dashboards for patient management, inventory alerts, and billing analytics.

Implemented secure JWT authentication and modular RESTful APIs.

[▶ Video Demo](#) | [GitHub Repository](#)

ChainCred - Decentralized Achievement dApp

Tech Stack: Rust (Soroban), Stellar Blockchain, React, TypeScript, TailwindCSS

Built a decentralized credentialing platform on the **Stellar blockchain** for immutable achievement storage.

Implemented a three-stage lifecycle (Draft → Minted → Verified) with **instant cryptographic verification**.

Reduced verification costs significantly using Soroban smart contracts (~\$0.00001 per transaction).

Integrated **Freightier Wallet** for secure user ownership and role-based access for independent verifiers.

[▶ Video Demo](#) | [GitHub Repository](#)

Lumen - AI-Powered Financial Dashboard (HackASol 2025)

Tech Stack: Next.js 14 (App Router), MongoDB, Mongoose, Tailwind CSS, JWT, Google Vision API / Tesseract, OpenAI API

Built an intelligent financial dashboard that tracks expenses, analyzes spending patterns, and generates AI-driven insights from scanned receipts.

Implemented OCR-based receipt parsing with automatic categorization, anomaly detection, and fraud alerts for suspicious transactions.

[▶ Video Demo](#)

Jungle Safari Souvenir Shop (Technovate 6.0 Hackathon)

Tech Stack: React.js, Node.js, MongoDB, React Native, Firebase

Built a full-stack e-commerce system with mobile app integration during a 3-day hackathon.

Implemented real-time inventory tracking, analytics, and admin-user dashboards.

Experience

GeeksforGeeks | MERN Stack Development Intern (June 2025 – Oct 2025)

Completed a 3.5-month internship focused on full-stack application development.

Worked on scalable web architectures using React, Node, Express, and MongoDB.

[View Certificate](#)

Education

IIIT Naya Raipur – B.Tech, Computer Science & Engineering | CGPA: **9.57 / 10** | Expected Graduation: 2028

JEE Main 2024: **98.94 percentile** (AIR 16,999)

Certifications

Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Scored 93% (Verify Badge)

GeeksforGeeks MERN Full Stack Development Internship (June–Oct 2025) – View Certificate

Mimo Full-Stack Development Certification (June 2025) – HTML, CSS, JS, Node, Express, SQL

Mimo Front-End Development Certification (June 2025) – React, CSS3, JS, UI Building

HackerRank Problem Solving (Intermediate) – Earned July 17, 2025 (View Certificate)

Deloitte Technology Job Simulation – Software Development Focus

AlgoUniversity Tech Fellowship (Stage 1 Qualifier) – Top 8% Nationwide

Problem Solving & Competitive Programming

GeeksforGeeks: 617 problems solved, 135-day streak, Top 4 rank, Coding Score: 1723. (View Profile)

LeetCode: 211+ problems solved, 1757 contest rating (Top 9.53%), 100 Days Badge (2025). (View Profile)

Strong in algorithms, time complexity optimization, and data structure design.

Achievements

Ranked among Top 5 coders in IIIT Naya Raipur at GeeksforGeeks Leaderboard.

Hackathon finalist at Technovate 6.0.

Maintaining a CGPA of 9.5+ in academics.
